Education

**Manipal Institute of Technology,
Manipal**
Computers and Communication
Technology
(B. Tech, 2015 - 2019)

**Tagore International School,
Vasant Vihar, New Delhi**
(3rd to 12th)

South Point School, Calcutta

**Design Head x2
Revels & TechTatva**
College Fests. Made the logos,
and all necessary branding.

**Editor-in-Chief
MTTN**
A college publication, and
media organisation. 150+ of the
finest writers, artists, and
photographers across 22
colleges in Manipal, under my
leadership.

Speaks
**English, Bengali,
Hindi**
...but understands
Spanish, Japanese,
and French with
working proficiency.

Experience

Juniper Networks India
(Now HPE Networks)
Intern - **Software Engineer 3**
(2019 - 2023)

Developed pre-LLM era AI tools
and dashboards that helped
internal engineers (~ 150).
Developed a "network engineering"
based mini language model.
Minimised tasks that took manual
tasks of several weeks to hours.

Having played video games for
more than a decade, **non-linear**
thinking, game theory, space
(map), resource control,
communication, coordination,
teamwork, and a keen sense of
human behaviour come naturally
to him.

Technical Skills

Design Softwares:
Adobe Photoshop,
Adobe Illustrator,
Affinity Designer

Pages / Layouts:
Adobe InDesign,
Affinity Publisher

Wireframing:
Figma / Lunacy

Code:
Python, C++, Java,
HTML/CSS/JS,
Svelte + Nodejs,
data science stuff,
can tango with AI

He codes, and designs too!

The debutant loves pixel art, isometric
environment design, and designing
characters. Believing everything can be
learnt, and mastered, he is a lifelong
student.

"The glass is half full if you're filling it.
Half empty, if you're drinking from it.
Nothing is isolated in time. And time is
perspective."

(Left) "Agni", circa
2025
